Brief

Your challenge is to build out this interactive rating component and get it looking as close to the design as possible.

You can use any tools you like to help you complete the challenge. So if you've got something you'd like to practice, feel free to give it a go.

Your users should be able to:

- See hover states for interactive elements

Download the project and go through the README.md file. This will provide further details about the project and help you get set up.

Want some support on the challenge? Go to the community section and ask questions in the help channel.

Get Started

1. Download the starter code
2. Set up the project with version control (e.g. Git)
3. Read the README.md file and have a look around the project
4. Get colors, fonts etc from the style-guide.md file
5. Set up your project/file architecture however you want
6. Start coding!

Share & Earn

Share this challenge to your friends and get 2 Tokens After they Complete It.
